

Dexcom G6

now subsidised for all Australians with Type 1 Diabetes

what is CGM?

CGM measures glucose levels continuously allowing users to **detect patterns 24/7 in real-time** so they can take action sooner. Unlike fingerprick testing, which provides a measurement for a single point in time, **Dexcom G6 CGM provides greater flexibility and dynamic glucose information by depicting trends and suggesting where glucose levels may be heading with no fingerpricks* required.**

diabetes never sleeps, but now you can with Dexcom G6.

No scanning and ZERO fingerpricks*

Dexcom G6 is our latest CGM range in Australia. The outstanding accuracy¹ of Dexcom G6 allows you to make treatment decisions with **no calibrations required.**

*If your glucose alerts and readings from the G6 do not match symptoms or expectations, use a blood glucose meter to make diabetes treatment decisions.

Dexcom CGM has been proven to:

- ✓ Increase time spent in range^{2,3}
- ✓ Improve quality of life and well-being⁴
- ✓ Lower HbA1c^{2,3}
- ✓ Reduce risk of hypoglycaemia^{5,6}
- ✓ **PREDICTIVE**
Urgent Low Soon alert provides advance warning ahead of a low glucose event
- ✓ **REMOTELY SHARE GLUCOSE LEVELS**
with family members, carers or loved ones with the Follow app[‡]
- ✓ **CUSTOMISABLE ALERTS, URGENT LOW ALARM**
and readings without scanning

HOW DO I APPLY FOR SUBSIDISED CGM?

STEP 1

Continuous Glucose Monitoring (CGM) Subsidy Initiative. Review the eligibility criteria available at ndss.com.au/CGM and speak to your healthcare professional (HCP) to see which product is right for you

[scan to review criteria](#) v
